## New Features / Enhancements

The following new features or enhancements have been introduced with this release

Creo <> NX

Ref ID	New Feature / Enhancement Description
--------	---------------------------------------

1	Support for NX 1872, 1899
2	Support for CREO 6 & 7
3	Improved output logging information.
4	Instance processing now provides a check if the instance exists and informs the user if not and then continues to process
5	Improved UI options for Creo Instance processing allowing for Off, List All Instances and for User specified instances.
6	Creo Export to NX1847 and above is now available

## Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release

### General

<b>Ref ID</b>	<b>Limitations and Restrictions</b>
---------------	-------------------------------------

<b>1</b>	Creo 4.0 minor updates M080 and above contain an issue stopping the process from running successfully. It is recommended to avoid these updates.
----------	--

### Creo <> NX

<b>Ref ID</b>	<b>Limitations and Restrictions</b>
---------------	-------------------------------------

<b>1</b>	Exporting from within NX is not available due to the use of the .prt file extension by both systems.
----------	--
