New Features / Enhancements

The following new features or enhancements have been introduced with this release

Ref ID	New Feature / Enhancement Description
1	Support for 3DExperience 2024x

Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release

Ref ID	Limitations and Restrictions
1	PMI associations not displayed In JT when PMI is created at an assembly level in 3DExperience.
2	Axis systems not displayed on model in JT when translating on the command line.
3	Colours not applied when importing JT file.
4	On 2022x and 2023x, Read PMI option does not affect whether PMI is read or not, this is controlled by DS option 3D Annotations.
5	On 2024x, Read PMI option needs to be applied in order for the axis systems to be displayed when the Axis Systems - Show option is toggled on.
6	Geometry hidden when captures are selected on an imported part. Geometry will need be shown after the capture has been selected.

Resolved Support Calls

The following list of Support Calls are resolved with this release

Support Call ID	Brief Description
TH-121	Top node in JT and document name now named as per the object title in 3DExperience when translating via DataExchangePLMBatch when arguments design_name and part_naming #PN# are applied in the xcad_jt_opts.txt file.
